

Ömer Faruk Doğan

EXPERIENCE

Neta Elektronik - Planning Long Term Intern - Aug 2026 - Present

By supporting end-to-end production planning and capacity analysis, optimized manufacturing workflows to drive operational excellence. Managed Material Requirements Planning (MRP) processes to align inventory levels with strategic production targets, ensuring timely procurement. Facilitated cross-functional coordination across purchasing, warehouse, and production departments to eliminate operational bottlenecks and ensure seamless system continuity.

RDC Partner - Business Analyst Intern - Jul 2026 - Aug 2026

By managing end-to-end requirements analysis for projects, they accelerated the software development lifecycle (SDLC) through the implementation of Agile/Scrum frameworks. They prepared BRD and FRD reports, created technical guidelines, and improved stakeholder alignment among multidisciplinary teams. By leading technical testing, they minimized post-deployment errors and ensured the delivery of robust, enterprise-ready software solutions.

Sintio E-Commerce & IT Consulting - Founder - Mar 2023 - Present

By designing scalable IT strategies and digital transformation initiatives, it supported operational efficiency and comprehensive business development processes for diverse clients. It managed cross-functional project management efforts, optimized key performance indicators (KPIs), and streamlined internal operational workflows. It developed advanced e-commerce solutions using data-driven methodologies.

Flo Group - Intern - Aug 2025 - Sep 2025

Analyzed and re-engineered workflow processes across cross-functional departments, driving operational excellence in management, and IT. Mapped interdepartmental operations to optimize functional dynamics and eliminate process bottlenecks.

SCA Social - Project Management Intern - Jul 2025 - Aug 2025

Managed a cross-disciplinary project integrating AI and data science to deploy an innovative compliance solution. Ensured strict adherence to data privacy regulations while aligning deliverables with overarching corporate strategy.

Pigleb Digital Solutions - Digital Solutions Specialist - Dec 2021- Jan 2023

Executed data-driven digital marketing and web development strategies, consistently elevating customer engagement metrics and establishing a dominant online visibility. Optimized online presence and digital architecture through targeted system deployments, accelerating business growth and expanding the company's market penetration.

Grapware Digital - Software Developer - Jun 2019 - Jun 2020

Architected and developed scalable software applications and database infrastructures, significantly enhancing overall system processing efficiency. Conducted comprehensive debugging and system integration testing, collaborating tightly with cross-functional technical teams to achieve seamless project deployments

Aras Kargo - Information Technology Technician - Jul 2018 - Aug 2018

Installed, configured, and maintained computer hardware and software systems while delivering dedicated end-user support to minimize system downtime.

Arkom Telekom - IT Support Technician - Jul 2017 - Aug 2017

Administered technical support, configured hardware, optimized system performance, and maintained network security infrastructure to ensure operational continuity.

EDUCATION

Istanbul Medipol University - Industrial Engineering - (2022 - 2027)

Humber College - Summer School - (2021 - 2021)

Istanbul Gedik University - Computer Programming - (2019 - 2021)

Yakacık V&T High School - Information Technology - (2015 - 2019)

Pendik / Istanbul / Turkey

(541) 635-9202

ABOUT ME

Industrial Engineering professional and active Business Analyst dedicated to bridging the gap between complex technical architectures and strategic business objectives. Combining a robust IT background with deep expertise in process optimization, I specialize in translating cross-functional requirements into scalable digital solutions within Agile/Scrum environments. Driven by a commitment to data-driven decision-making, I consistently orchestrate the full SDLC to eliminate operational bottlenecks and deliver measurable business value.

VOLUNTEERING

IMU Operations Research

Oct 2024 - Present

Design compelling social media content and develop corporate identity materials to enhance organizational visibility and brand engagement.

IMU Teknofest

Oct 2024 - Present

Provided technical mentorship and strategic support for various engineering and technology projects, ensuring optimal execution.

IEEE Gedik Student Branch

Dec 2019 - Jul 2021

Led and organized technology-driven events and workshops to advance technical proficiencies and foster an innovation-centric community among students.

SKILLS

- SDLC, Agile/Scrum, BRD & FRD
- MS Excel, PowerBI
- Python, SQL

LANGUAGES

- Turkish - Native
- English - Working Proficiency
